MOHAMMAD SHAHINUR KARIM

Bioinformatics | *Medical & Scientific Writing*

Shanghai, China | (+86) 18621870767

shahinurkarim16@gmail.com | ORCID: 0009-0009-9790-6688 | GitHub: msks2016

PROFESSIONAL SUMMARY

MSc candidate in oncology (Shanghai University) with a record of eight published journal articles in oncology, infectious disease, ophthalmology, nutrition and environmental health, and hands-on experience in bioinformatic analysis of public cancer datasets using R. Combines a clinical biochemistry background with training in scientific writing and research ethics. Seeking a role in bioinformatics or medical and scientific writing.

CORE COMPETENCIES

Bioinformatics	R programming; TCGA, CPTAC-3 and GEO data handling; survival analysis (Cox regression, concordance index); lncRNA–miRNA–mRNA (ceRNA) network analysis; SPSS; GIS mapping; reproducible code on GitHub
Scientific & Medical Writing	Research manuscripts and journal submissions; study protocols and OSF pre-registration; PRISMA-style literature screening and data extraction; scientific English editing; research ethics
Laboratory & Clinical	Cell culture, transfection, qPCR, western blot, luciferase assay, CCK-8, flow cytometry, ELISA, HPLC; clinical biochemistry in a hospital laboratory

BIOINFORMATICS PROJECTS

Benchmarking published lncRNA/miRNA prognostic signatures in lung adenocarcinoma 2026 – Present

Independent computational project | *Shanghai University* | *manuscript in preparation*

- Searched and screened more than 400 PubMed records (PRISMA-style) and extracted data from published signatures into a structured template; ran a reporting-completeness survey of 76 papers with a second-coder check.
- Scored 15 selected signatures in independent cohorts (TCGA-LUAD, CPTAC-3, GEO) in R, using Cox models, concordance index and random-signature null comparisons with multiple-testing correction.
- Registered the analysis plan on OSF and kept amendments transparent; code is version-controlled on GitHub (github.com/msks2016/LUAD_signature_benchmark).

LINC-PINT / miR-135b-5p / KLF4 ceRNA axis in lung adenocarcinoma 2026 – Present

MSc thesis project | *Lab of ncRNA and Cancer, Shanghai University*

- Completed the bioinformatics component and designed the wet-lab validation (qPCR, CCK-8 after LINC-PINT knockdown); manuscript writing under way.

PUBLICATIONS

Eight published articles, one as first author (Karim, M. S. in bold).

Vaccination and long-term follow-up of post-COVID-19 complications. *International Journal of Applied Sciences: Current and Future Research Trends*, 15(1), 1–15.

RESEARCH EXPERIENCE

Research Assistant, Lab of ncRNA and Cancer — Sept 2026 – Present
School of Life Sciences, Shanghai University | Supervisor: Prof. Ma Zhongliang

- Contribute to ongoing lncRNA and lung cancer projects; lead an independent project toward journal publication and the MSc thesis.

Research Assistant, 4-Green Research Society — Feb 2021 – Dec 2022
Dhaka, Bangladesh | Supervisor: Prof. Md. Shahinul Islam, PhD

- Worked on government-funded projects combining laboratory experiments and data analysis on public health and environmental problems.

Intern, Institute for Developing Science and Health Initiatives (iDeSHi) — May 2022 – Nov 2022

- Advanced hands-on training in clinical biochemistry and molecular biology.

PROFESSIONAL EXPERIENCE

Junior Biochemist, Bangladesh Eye Hospital and Institute — Feb 2023 – July 2025
Dhaka, Bangladesh

Laboratory Assistant / Lab Technologist, Bangladesh Eye Hospital and Institute — Feb 2016 – Aug 2018
Dhaka, Bangladesh

EDUCATION

Master of Science (MSc) in Biology, Major: Oncology — Sept 2025 – July 2028 (expected)
Shanghai University, Shanghai, China

- cGPA: 4.0/4.0 (coursework completed); currently conducting thesis research for publication.
- Core Coursework: Biochemistry and Molecular Biology, Nanomedicine, Molecular Oncology, Scientific Writing and Research Ethics, Neuroscience.

Bachelor of Science (Hons) in Biochemistry — Jan 2019 – Dec 2022
Primeasia University, Dhaka, Bangladesh

- cGPA: 3.97/4.00; merit position 1st of 108 students.
- Coursework: Biochemistry, Molecular Biology, Molecular Genetics, Biotechnology, Pharmaceutical Chemistry.

HONOURS AND AWARDS

Chinese Government Scholarship (CSC Type-A) — 2025 – 2028
Selected for the Chancellor's and Vice Chancellor's Gold Medals (graduating batch of 2022), Primeasia University — 2023
Dean's Award and Scholarship, Primeasia University — 2022
University Merit Scholarship, Primeasia University — 2019 – 2022

LANGUAGES

English (IELTS 6.5), Bengali (native), Chinese (beginner)
